

Life Link Children's Homes

Rescuing Lives Today – Making a Difference in Tomorrow

What does it take to feed a starving child? *Money*. What does it take to be able to pick up a child who hasn't had a bath in months and give it clean clothes? *Money*. What does it take to rock them to sleep, change their diapers, and give them a bottle? *Frankly, it all takes money.*

Oh, yes, it also takes love, dedication, resolve, and lots of prayer. However, these are all things we are more than able to supply. The money, however? *That's what we very much need you to provide.*

If you could save a child's life by giving him or her food or shelter, wouldn't you do it? Right now, thousands of children are asking for food and shelter and you can help provide it.

You can help right NOW, when they need it most. You can provide food, clothing, and shelter for precious children around the world! How? By your financial gifts.

Why?

Because, unfortunately, every day children wake up hungry and alone, and go to bed hungry and alone. They are going without food, becoming malnourished and dying the most horrible death. They are without shelter or medicine. The cure for malaria costs only around \$3.00 a treatment in Africa. Yet children die of the devastating disease everyday! Orphans wander aimlessly in the streets, waiting, praying for help from someone, anyone. In addition, war in Africa and drug cartel violence in Mexico and floods in the Philippines, only makes the situation worse.

Are you overwhelmed with the need? I am sometimes. Then I remember that if everyone gives just a few dollars at a time, we can do this!

What hope do these children have? To them the situation seems hopeless. Nevertheless, you are their hope! You and Life Link working together are the only prospect for a life filled with love and meaning, rather than death and despair!

You can have the satisfaction of knowing that while you may be sitting at home in your lazy boy, watching the news, drinking ice tea, that a little girl or boy who was once sleeping in the dirt, eating rotten food from a trash container, and fighting for a little dirty water, is now in a nice bed, with clean clothes and a full stomach. Thanks to you.

WHAT A DIFFERENCE YOU MAKE! CAN YOU SEE IT? You have what it takes! Please give.

Moreover, to those of you, who are regular supporters, thank you for your prayers and partnership! Please give this newsletter to your friends and pastors! Encourage them to become a part of the incredible work of *Rescuing Children* with Life Link.

God bless!
Together for the Children,

Connie

Who will be rescued next?

Rescued!

Life Link is a non-profit international human service corporation committed to improving the quality of life for children everywhere. All donations are tax deductible.
